## **DETAILED ACTION**

### **Election/Restriction**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-14 and 23-27, drawn to a semiconductor device, classified in class 257, subclass 778.

II. Claims 15-22, drawn to a method of manufacturing a semiconductor device, classified in class 438, subclass 108.

2. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, unpatentability of the Group I invention would not necessarily imply unpatentability of the Group II invention, because the device of Group I invention could be made by a process materially different from that of the Group II invention. For example, the process of claim 23 can be materially altered by disposing the sealant in the surface of the lid that makes contact with the substrate.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the fields of search are not co-extensive and separate examination would be require, restriction for examination purposes as indicated is proper.

Art Unit: 2826

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leonardo Andujar whose telephone number is (703) 308-0080.
